

# Sars-coV-2

## Role of Homeopathy

# Familiarity with the virus

- RNA envelope
- Host mechanism ( animals )
- Sars + Corona
- Sars-coV-2 is a technical term for virologists in labs, while Covid-19 is a term for the average person
- Study flu epidemics of the past, especially the Spanish flu of
- Lung pathology
- Multiple organ damage
- Global Pandemic implications

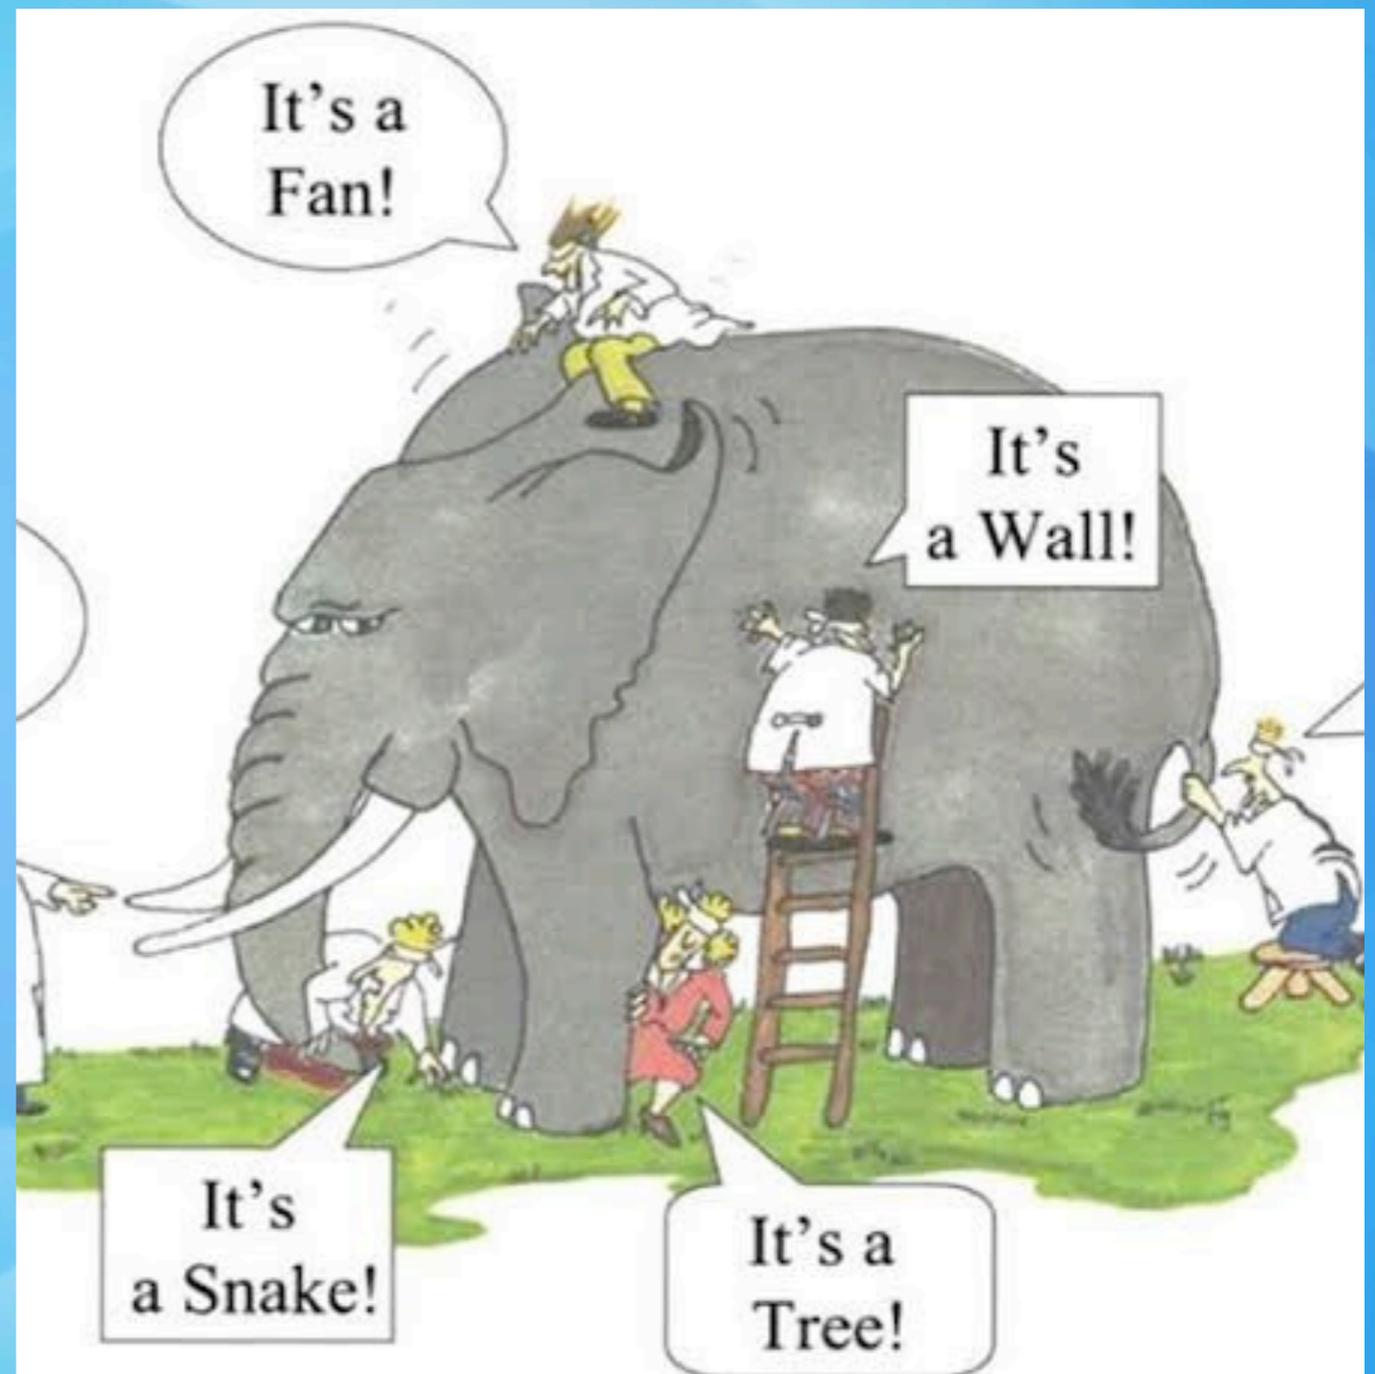

# Need for an overview

- Homeo-prophylaxis
- Genus epidemicus
- No standard for fixed protocol
- Lack of anti-miasmatic approach
- Low level of team spirit among the homeopathic fraternity

Fraternity: a group of people sharing a common profession or interests.

"members of the hunting fraternity"

**ORGANON OF THE MEDICAL ART  
DR.SAMUEL HAHNEMANN  
DUST THAT PRECIOUS BOOK!!**

\* NOT JUST 100-103

\* APH 73

\* 99-104

\* THESE APHORISMS AND THEIR RELEVANT  
**FOOTNOTES** PROVIDE CLEAR DIRECTIVES

## 73a(footnote)

- \* The homeopathic physician does not acknowledge such names as dungeon fever, bilious fever, typhus fever, putrid fever, nerve fever, or mucous fever; rather he cures each one according to its own peculiarity, without giving it a fixed name

# 101

\* Meanwhile, the **carefully investigating** physician can often come so close to the true state, **even with the first or second patient**, that he becomes ‘**alive**’ to the characteristic image of the disease, and then finds a fitting, homeopathically commensurate remedy for it.

# Tip of the iceberg

What lurks beneath is getting revealed in bursts

Homeopathy can play a big role in alleviating initial symptoms and providing relief of acute symptoms

Prevention is better than cure

# 102 and 102footnote

- \* 102 : On the one hand, the general signs ( e.g. loss of appetite, sleeplessness ) obtain their own narrow determinations.
- \* On the other hand, the more marked, particular, and ( at least in this connection ) rarer symptoms, belonging to only a few diseases, emerge and form what is characteristic for this epidemic
- \* 102 (footnote): for the physician who has already, in the first cases, been able to choose a remedy that approximates the specifically homeopathic one, subsequent cases will either confirm the suitability of the chosen medicine, or direct the physician to an even more fitting, the most fitting homeopathic remedy

# Chloroquine and Hydroxychloroquine

- \* Yesterday (March 19), President Donald Trump boasted about the "very encouraging results" of two drugs called chloroquine and hydroxychloroquine as treatments for the novel coronavirus, claiming that the medications have "gone through the approval process" and that "we're going to be able to make that drug available almost immediately."
- \* But the U.S. Food and Drug Administration (FDA) swiftly issued a statement to clarify that, no, these drugs are not approved as treatments for COVID-19, the disease caused by the coronavirus SARS-CoV-2.
- \* Both drugs are approved to treat malaria, lupus and rheumatoid arthritis, but must still be assessed in clinical trials before being declared a safe and effective COVID-19 treatment.
- \* Doctors in the U.S. have wide latitude to prescribe drugs "off-label," meaning for conditions beyond their initial FDA approval.

# Role of Nosodes and Sarcodes

## Homeoprophylaxis / Genus epidemicus

- \* Influenzinum
- \* Influenzinum ( Spanish flu 1918 )
- \* Oscillococcinum
- \* Bacillinum
- \* Tuberculinum aviare
- \* Pyrogenium
- \* Corona nosode ( Argentina, Brazil, India and Cuba have used specific nosodes for other epidemics in the past successfully )

# Tamiflu / Oscillococcinum

- \* Tamiflu (oseltamivir phosphate) is an antiviral drug. It works by attacking the flu virus to keep it from multiplying in your body and by reducing the symptoms of the flu.
- \* Tamiflu is used to treat people 2 weeks of age and older who have the flu (influenza A and B viruses).
- \* **Oscillococcinum /,ɒsələ'kɒksɪnəm/ (or Oscillo) is a homeopathic preparation fraudulently marketed to relieve flu-like symptoms. It does not provide any benefit beyond that of sugar pills. It is a popular preparation, particularly in France and Russia. ( Wikipedia )**

# Eupatorium Perf Compositae

Pain in the muscle  
( Sherr )

Rib breaking pains  
with inspiration

Desires cold water

Fear of being  
approached

Clarke found Eup-p  
most beneficial in  
influenza

# David Hanzarouth ( Toronto )

- \* The minute I woke up, I was drenched in a pool of sweat. I was shaking. I was so cold. My head was pounding. It was something like I've never experienced before," Anzarouth said.
- \* "It was the most incredible pain I've ever experienced ... My body felt like I had been flattened."
- \* He didn't know what was wrong, but whatever it was had left Anzarouth debilitated and bedridden until Saturday evening, two days later. Still, he couldn't stomach a slice of toast or hold himself up in the shower.
- \* That night, his mouth and throat began to feel parched, and he struggled to breathe as he lay in bed, sleeping for no longer than 30 minutes at a time.

# **Lisa Merck, Nurse Colorado Medical conference, Hawaii**

- \* "We got back and my muscles ached, my bones ached and my joints ached really bad," Merck said. "It felt like someone was stabbing me with an ice pick and I was like, 'I wonder if I have the flu.'"

# Eup-perf (cont)

- \* Causations - Ill effects of **ice-house** ( sudden and extreme environmental fluctuations )
- \* Constitutions - Worn-out constitutions from **inebriety**.
- \* Modalities - **Better by conversation**, by getting on hands and knees. Better from vomiting bile, sweating, lying on face. Worse from cold air, Lying on part. Coughing. **Smell or sight of food.**  
**Motion.**
- \* MIND - Feels at night as if going out of his mind. Moaning, anxiety, despondency. Very restless, cannot keep still, though wishes to. **Moans** with aching pains.
- \* Abdomen - Colicky pains in upper abdomen with headache and other pains. **Abdomen full and tympanitic.**
- \* **Avoids tight clothing.**
- \* Back - Pain in back of neck and between the shoulders. Intense backache, **as if beaten**, pain ascends. Trembling

# Scilla (Squilla) Maritima ( Lilliflorae ) red sea onion

Forced out, release, escape, letting out,  
forceful coming out ( Sherr )

Pneumonia with diarrhea and purging of  
urine and vomitus

Scilla promotes expectoration and urine in  
large doses, vomiting and purging (Green's  
Herbal).

“Its cardiac action is exactly the same as that  
of Digitalis”.

Pain in bends of joints

Streamy nose and eyes

Bladder incontinence

Anosmia coryza during

**Allium cepa+incontinence**

# Camphora Magnoliae

Bewildered and frightened

Shock with numbness

Stupefaction

Confused

Staring wide eyed and vacant

Camph. achieved classical fame in cholera epidemics . In some epidemics, Camph. given early has cured a majority of the cases treated, whether it was given as drop doses of the tincture or in the 30c.

# Camphora

- \* Shock. State of collapse. Sudden collapse from over-powering influences acting on the nervous centre. Sunstroke
- \* With ebbing vitality, fainting spells, cold sweat and icy cold body.
- \* First stages of a cold with chilliness and sneezing. Very sensitive to cold and to touch. Great sensitiveness to cold
- \* And cold air, which worsens the pains, takes cold easily. Icy coldness of the whole body, sudden sinking of strength, pulse small and weak . Low blood pressure after operations, if temperature is subnormal.
- \* Patient will not be covered, notwithstanding the icy coldness of the body, or wants them off and then on alternately with internal burning heat and anxiousness. Limbs cold with cramps.
- \* Camph. has a direct relationship to muscles and fascia.

# Justicia (Q or 30C)

\* The characteristic mental symptom of Justicia is **irritability**. The patient is easily angered. The patient is not in good humor and is very **averse to holding any conversation**.

- \* Very useful remedy for acute catarrhal conditions of the respiratory tract. **Fits of sneezing with lachrymation and loss of smell and taste.**
- \* Coryza; fluent, acrid, with violent sneezing, coughing or asthmatic attacks. Cough with tightness of chest, as if it would burst; with bronchial rattle;

# Grindelia Robusta (Q or 30C)

- \* Leaves are covered with a viscid balsamic secretion therefore called "gum plants".
- \* Allen's Encyclopedia:
  - \* At seven PM I took a teaspoonful of the tincture; repeated the dose in half an hour, at which time I began to feel a terrible fullness in my head, as though I had taken 10 or more grains of Quinine.
  - \* It produces paresis of the pneumo-gastric nerve interfering with respiration and producing profuse secretion in bronchial tubes. Suffocation on falling to sleep or on awakening. Asthma and emphysema with dilated heart. Rattling breathing. Bronchorrhoea with tenacious, whitish expectoration. Cannot breathe when lying down.

# Grindelia (cont)

- \* Fear: sleep: go to, to.
- \* Fear: suffocation, of.
- \* Light: desire for.
- \* **Longing for: sunshine,  
light and society.**

# Licorice root, *Glycyrrhiza glabra* [Glyc-g.]

## Leguminosae

### A case...not responding to *Coccus cacti*

- \* Sucking on licorice lessens the throat dryness, and soothes the roughness
- \* Frequent colds, coughs and influenza.
- \* Frequent sore throats.
- \* My family 'sucks' me dry
- \* Scattered but try to come together
- \* We can never come together
- \* Coming together hurts
- \* Need strict boundaries
- \* We need to adhere as one, but there is pain when we are too close
- \* It's like how my throat adheres due to severe dryness, it sticks to one another...
- \* Glued together like sandpaper, as if bound
- \* The sinus pain goes into the teeth
- \* A single dose of 1M offered instant relief at all levels

# Azadirachta ( neem ) Compositae

## 30C or powder or chew leaves

- \* The leaves, bark, wood, roots, fruits and every part of this tree, are intensely bitter. The vast range of its action is chiefly due to azaserine, margosine and catechin, the three active principles found in this tree.
- \* Catechin contains anti-oxidants prevents damage to immune cells by neutralizing free radicals
- \* The neem tree is used for treatment of bacterial, viral, fungal infections and for the treatment and prevention of malaria.
- \* Its action on fevers is well-known in India, the native physicians use neem as the principal substance in their febrifuge medicines.

## Neem (cont)

- \* LUNGS - Sighing, breathing at intervals. Hot breath, rapid respiration. Short dry cough in the afternoon. Violent cough with thick, white, jelly-like sputum, which is difficult to expel. Cough after bathing. Cough with greyish expectoration, thick sputa. Cough with tasteless white sputa.
- \* FOOD AND DRINKS: SALT OR SALTY FOOD: DESIRES: TASTE, WITH BITTER.
- \* FOOD AND DRINKS: COLD: DRINKS, WATER: DESIRES: CORYZA, WITH. {0> 1> 0} [192]
- \* ANXIETY: APPETITE, WITH DIMINISHED. {0> 1> 0} [192]
- \* Dementia: old people, in. {13> 27> 0} [149]
- \* Fear: happen: something will: terrible, horrible. {6> 16> 0} [192]
- \* Forgetfulness. {54> 204> 0} [149]
- \* Going out: aversion. {1> 10> 0} [77]
- \* Hypochondriasis. {54> 88> 0} [149]

# Healthy lifestyle changes...
